WAUSEON OHIO, FRIDAY, AUGUST 10, 1917

\$1.50 PER YEAR

Physical Examination of First 300 Fulton County Men, 200 "Fit" Men-Board Busy With Exemption Claims-Two Hundred More Men To Be Summoned Soon

The result of the physical examin- | 664 Harding, Ira Dale ation of the first 300 of Fulton coun-ties registered men on Thursday Friday and Saturday of last week forms 363 splendid testimony to the physical 1355 fitness of the young manhood of this 327 county and its something to be proud of, that the vast majority of our 556 young men are clean, healtny, normal 1709 men. Doctors Murbach and Heffron 1057 actually examined 286 men; the eremaining 14 of the 300 summoned 154 either had enlisted or were absent 406 from the county and secured permits 519 to be examined in the places where they happened to be. Of the 236 men examined, only 86 were found to be 1425 physically unfit for military service 974 and Dr. Murbach states that the majority of these were counted out be- 297 cause they were under weight. There 1151 were 58 of the 200 who passed the 200 physical examination who filed no 1112 claim for exemption, but the offical 122 quota for Fulton county to furnish for the First National Army is one hundred and forty-two; so the Board have about 84 men yet to secure. The board is in session every day and will 750 probably not finish considering and 56 passing on the exemption claims before the end of the week; some exemptions have been granted and some refused many others are beld awaiting proofs; the heard is acting very de-liberately and making every effort to be fair both to individuals and to the 1417 be fair both to individuals and to the 981 Martin, Olen Bennett government for whom they are not 1022 Miller, Frank Harrison

the men who will be selected will 187 net be called into the training camps 628 or cantonments until about October 772 1st. It is certain that the Fulton 537 County Board will find it necessary to 258 summon at least 200 more men for 1359 examination before they will be able 1141 to secure the necessary 142 men to 1314 fill the quota.

Following is the list of the men who 1358 passed the physical examination and 1688 were pronounced able for military ser-
